

### SAMPLE SCHEDULE 3

This is the schedule for a student that is considering studying abroad and applying to medical school after their FOURTH year of college. This schedule would prepare the student for the MCAT for a late spring test date in their fourth year.

We encourage students to incorporate coursework that will prepare them for the 'Psychological, Social, and Biological Foundations of Behavior' section of the MCAT. This could entail courses in Psychology, Sociology, Science in Society, and possibly Anthropology. Take a look at the Health Studies Cluster to gain an idea of a number of health related courses offered on campus. Additionally, students will need to complete a year of ENGL for most health professional programs. Medical Schools classify acceptable ENGL courses as those that encompass Composition and Rhetoric, Creative Writing and Literature.

	FALL	SPRING
First Year	BIOL 181 or MB&B 181  BIOL 191  CHEM 141 or CHEM 143  LANGUAGE ?	BIOL182 or MB&B 182  BIOL 192  CHEM 142 or CHEM 144  CHEM 152  LANGUAGE ?
Second Year	CHEM 251  CHEM 257  LANGUAGE ?	CHEM 252  CHEM 258  LANGUAGE ?
Third Year	STUDY  ABROAD	MB&B 228  (BIOCHEMISTRY)
Fourth Year	PHYS 111  PHYS 121  MATH 132 (STATS)	PHYS 112  PHYS 122  MATH 119 or 121
